

Silver Package

State-of-the-Art Cleaning System - Cleaning performed with the most powerful truck-mounted units on the market today

Pre-Inspection - Every great carpet cleaning starts with a proper pre-inspection. Our service technician will carefully and thoroughly inspect your particular areas of concern as well as noting carpet construction and current soiling conditions. He will also advise you of any possible permanent staining that may already exist.

Moving Furniture - Sofas, chairs and tables will be carefully moved. Larger items such as; beds, dressers, entertainment centers, china cabinets, and other liability prone items are left in place under our regular pricing structure. Furniture will be protected with disposable blocks and tabs as needed.

Pre-Vacuum - All areas to be cleaned will be vacuumed thoroughly for complete dry soil removal.

Pre-Condition - Traffic areas are treated with a pre-conditioner for the most effective soil removal.

Pre-Spot-Treatment - Spots are pre-treated prior to cleaning.

Pre-Groom - Your carpet will be pre-groomed with a carpet groomer to further loosen soil in the traffic areas.

Extract & Rinse - Once the soil has been loosened, our state-of-the-art truck-mounted hot water extraction process will thoroughly rinse the carpet pile. Pressure and heat are regulated so that your carpet is never over-wet. We rinse with specially treated water at temperatures ranging between 60 - 235 degrees depending on the fiber content and soiling condition. This step also improves your indoor air quality by removing the pollens, pollutants, and dust mites, etc. from the carpet.

Neutralize - Every carpet that we clean is rinsed with a PH balanced product so that there is never a sticky residue left behind. (This is a very important step that is often overlooked by other cleaners).

Post Spot Treatment - If any spots are not removed during the cleaning process, specialty spotting techniques are employed after the thorough cleaning has been performed.

Note: Permanent stains that have been identified by our service technician in the pre-inspection may be in fact permanent.

Post Inspection - Please walk through your home or business to inspect our work. Let us know that you are thoroughly pleased by signing our service invoice.
